

## Advanced RNA Based Supplementation *For Health Care Professionals*

## Total Body Detox<sup>®</sup> - Significantly Reduce Pathogen and Toxin Load

To effectively reduce Toxic Body Burden (TBB) of harmful toxins and pathogens, Results RNA<sup>®</sup> has created Total Body Detox<sup>®</sup> comprising two revolutionary Intra-oral spray formulas Advanced Cellular Silver (ACS) 200<sup>®</sup> Extra Strength and Advanced Cellular Zeolite (ACZ) nano<sup>®</sup> Extra Strength. The most effective immune system support formula available to physicians, ACS 200<sup>®</sup> Extra Strength has been proven in numerous independent studies to be anti-fungal, anti-viral and bactericidal, achieving complete kill against Candida albicans, Rhino Virus, Borrelia burgdorferi and MRSA in just minutes.

A breakthrough in detoxification, ACZ nano<sup>®</sup> Extra Strength selectively and irreversibly binds and expels toxic heavy metals, chemical toxicants and free radicals. Proven independently in urine challenge studies, ACZ nano<sup>®</sup> Extra Strength has been shown to increase urinary output of mercury by up to 55,300%, and many other toxicants to significant levels over baseline during only 12 hours of post-provocation urine collection. Enhance the healing power and patient outcomes of your practice with an unparalleled solution for systemic reduction of pathogen and toxin burden.

## Advanced Cellular Silver (ACS) 200<sup>®</sup> Extra Strength – Anti-fungal, Anti-viral, Bactericidal

The leading silver-based supplement in multiple independent studies, ACS 200<sup>®</sup> Extra Strength rapidly kills an enormous array of pathogenic microorganisms; literally oxidizing the cell wall of Gram-positive and Gram-negative bacteria as well as naked virus, fungus, and all without damaging human tissue. When choosing an immune system support formula, safety and efficacy are the only two factors that truly matter. ACS 200<sup>®</sup> Extra Strength provides fast and significant relief patients can feel, without harming the gut flora.

Far beyond 'colloidal silvers' in performance, ACS 200<sup>®</sup> Extra Strength provides 200 parts per million of uniquely energized silver molecules, which are suspended in wetter water<sup>®</sup>; a proprietary micronutrient transport medium that is 43% lower in surface tension, enabling a more rapid penetration through all biological systems. Prepare for Success. No single immune system support product will provide a more effective treatment or prophylaxis than can be achieved using ACS 200<sup>®</sup> Extra Strength, proven the most powerful, broad-spectrum immune support available to physicians today.

### SUPPLEMENT FACTS

**Advanced Cellular Zeolite (ACZ) nano® Extra Strength – Eliminates Heavy Metals, Neurotoxins, Free Radicals**

ACZ nano® Extra Strength selectively and irreversibly binds and removes toxic heavy metals, chemical toxicants, and free radicals of all types through the urinary tract, without removing vital nutrients. These results have been verified in multiple, independently derived urine challenge studies.

**Increased Absorption:** Urinary toxic output is significantly increased as nanomized zeolite particles are readily absorbed into the bloodstream, providing systemic reduction of body burden. Most agents such as EDTA and micronized zeolites exhibit poor absorption and remain in the gut.

**Nano Technology:** ACZ nano® Extra Strength is the only nanomized zeolite formula available with over 90% of total zeolite crystals existing within the nano range as calculated via SEM analysis. Competing liquid and powdered zeolite formulations utilize micronized zeolite, with particles over one thousand times larger than the nanomized zeolite crystals provided in ACZ nano® Extra Strength. In other words, ACZ nano® Extra Strength provides around 1,000 nanomized zeolite particles for every single micronized zeolite particle provided in competing zeolite products. An unparalleled adsorbent, ACZ nano® Extra Strength exhibits a one million times increase in actual surface area per equal amounts of zeolite administered, delivering proven and far superior results.
